DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Vouros-Lindsey house has an appearance which approximates the Blue Max's original appearance except for the difference in fenestration. The building is five bays long, two bays deep, three stories tall and has a hip roof. On the first story is a porch supported on turned columns between which is a turned balustrade. The porch appears to date from the beginning of the twentieth century. The principal facade has a central entrance with sidelights and cornice, but no transom. All of the windows on the facade possess 6/1 sash although there is a difference in size on each story like the other buildings of the period.

On the east side of the building is a two bay, two story addition with flattish roof. From its east side extends a leanto addition.

On the south side of the house is a brick chimney with two flue liners extending above the concrete cap. The foundation is stuccoed and the weatherboard walls are painted as is the trim. Originally there were shutters on all windows, however, only the cast iron shutter dogs remain.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

Architecturally this dwelling is significant because of its contribution to the streetscape. As a period dwelling it represents the second stage of building construction in town, the first stage being the forms which approximate 18th century forms. The second phase shows the influence of the Greek Revival style, although this dwelling is lacking any suggestion of style except for its form.

This house was built by Henry A. Lindsey, one of the three Lindsey Brothers who owned a large sawmill on the causeway, and was built from logs floated down Back Creek (see CE-332). In 1908, Julius Clayton, of a prominent local family, bought this property. The Clayton name has been associated with Delaware government and courts since colonial days. Dr. Joshua Clayton, an ancestor of Julius', was the last President of the State of Delaware and the first Governor.

Julius Clayton had several businesses in Chesapeake City. He cut ice in the winter, stored it underground packed in sawdust, and delivered it to local customers. Some was shipped to Baltimore and Philadelphia. He also had a butcher shop in town.
